WORK.

By Lady Cook, nee Tennessee C. Claflin, of Richmond, Surrey, England.

It shows the occasional perversity of social sentiment that the state of least value should often be most esteemed, that labor should be scorned and affluent idleness held in honor. Thus the general ambition of those engaged in work of any kind, and especially in manual work, is to escape from it, to gather riches and retire; for, with a large class, a gentleman is not as in old times, a man gentle of birth or gentle manners, but simply one who can live without work. We have grown so sordid that wealth overshadows all. With the multitude, virtue, valor, learning, and abilities, obtain less esteem than riches. And even when a stream of titles flows from the royal fountain of dignities, these are almost solely bestowed upon the very wealthy. If to preserve an appearance of impartiality, a man celebrated for worth or genius here and there receives one, it is only some scrappy thing, the slightest on the list. It would be unpardonable presumption on such occasions for distinguished scientists, inventors, poets, artists, or men of letters, to put themselves on a par with plutocrats, though the latter may be destitute of everything but money. But all these distinctions in favor of wealth are unwise, unjust, and therefore immoral; are calculated to discourage and demoralize the workers, and must eventually fail to confer any honor upon their recipients as soon as high-spirited men refuse them on principle.

Intelligent and responsible work is the privilege and glory of man. It is true in a sense that other animals work, and some of them in communities with regular and orderly division of labor; but even so, their efforts are instinctive, and invariably alike from age to age—without progress and without deterioration. Man, however, can adapt his work to all circumstances and to all needs. He has arrived from the flint file to the circular saw, from the stone javelin to the Armstrong gun, from the jade hammer to the giant Nasmyth, and from figleaves to shot-silks. He burrows into the bowels of the earth and robs it of its treasures, explores the bed of the sea, and mounts aloft in mid-air beyond the eagle's highest flight. He has measured and weighed the planets, and put the earth in a balance; has mapped out the universe and determined the components of the stars. Vast and innumerable have been his achievements over the blind forces of matter: dissolving, combining, blending and transposing, and subduing all to his service, forming new substances, discovering new materials, and at the same time multiplying and gratifying human wants, pleasures and conveniences. All this has been the result of work. Brains and hands have united for its production. The quickest brains and deftest hands have led the way, and the others have followed in the rear. What we are and have today form the resultant of the combined forces of mind and muscle during all the past existence of humanity.

All honor, then, to work and to the workers, whether their part be high or low; whether theirs are the master minds that plan, or the patient hands that execute. Whatever their degree, each is essential to the others, and they to each, as Menenius Agrippa showed the discontented Romans long ago in his fable of the Belly and the Members. No properly informed person could ever suppose it more desirable to idle than to work, or that any man of worth could ever be a do-nothing. The drones of our commonwealth may be anything from tramps to Piccadilly loungers, may be beggars or peers, but they have no moral right to dwell amongst an industrial community. As a rule, they are the pests of society, high and low—its roues, gamblers, profligates, and debauchers; the disciples and apostles of sensuality. Those marvelous insects, the honey bees, give a perpetual series of object lessons in the proper treatment of drones. Their remedy may be sharp, but it is very effectual.

Idleness is the mother of mischief, and a man or woman without an occupation of some sort is on the high road to moral ruin, if not to financial. Idleness has been the bane of women of the wealthy classes in the past, and has seriously retarded female progress. But a new era has dawned for the sex, and it will devolve upon the enlightened members of all classes to lead the way for a thorough and permanent reform. It is gratifying to know that the idlers are in comparatively small minority. Many of our hardest workers are men of rank and wealth. Our national sports are robust, and indicate a manly, hardy race, and English gentlemen are not afraid to soil their hands either at play or work. The star of effeminate dandyism is no longer in the ascendant, and the tribe of Pope's "Sporus" becomes annually smaller. How savagely the poet lashed this dainty "Lord Fanny"—"Sporus, that mere white curd of ass's milk.,'

"Amphibious thing! that acting either part,
The trifling head, or the corrupted heart,
Fop at the toilet, flatterer at the board,
Now trips a Lady, and now struts a Lord,
Eve's tempter thus the Rabbins have exprest
A cherub's face, a reptile all the rest.
Beauty that shocks you, parts that none will trust,
Wits that can creep, and pride that licks the dust."

The moral and material blessings arising from work are not the only advantages it offers. We are too apt to think of these alone, to contrast our ocean-liners with the frail coracles not yet extinct, and our complicated net work of roads and canals and magnificent bridges with the once trackless forests and impassable rivers, now traversed in every direction. Health is not the least of our benefits, and nothing contributes more to this than a regular occupation. Not the work that overstrains, nor the slavery of the "sweater," nor the feverish haste that flurries; but calm, solid, steady, well-digested labour, fairly remunerated and wisely relieved by rational diversion. This is the golden recipe for the Mens sana in corpore sano. The poet Cotton said of such:

"Why is our food so very sweet?
Because we earn before we eat.
Why are our wants so very few?
Because we Nature's calls pursue.
Whence our complacency of mind?
Because we act our parts assigned."

Work whets the appetite for pleasure as well as for food. Work gives a zest to enjoyment. Work bestowed, invests every possession with increased interest. We value the more that which we produce with our own hands. The fairest flowers are fairer for having been grown by our own skill. Thus in a thousand ways, work in its turn becomes a pleasure, and the industrious experience joys that the idle can never know. Happiness then, as well as duty, urges us to work. Necessity and self-love may stimulate us to it, but God in Nature sets us a never-failing example of disinterested and unflagging industry. None should be without his share in the great brotherhood of labour, and women should be permitted to participate as fully and freely as men. The do-nothings of either sex, however, may serve, like the drunken Helots for the Spartan youth, "to point a moral, and adorn a tale." But to treat them as superior citizens and to dub them "ladies" and "gentlemen" on account of their uselessness, is an outrage to the industrious and a disparagement of man's highest function—Work.

Beware of Ointments for Catarrh that Contain Mercury

As mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally, and made by F. J. CHENEY & Co., Toledo, O. Testimonials free.

Base Ingratitude.

"Dear me!" exclaimed the lady who had become addicted to the slumming habit. "I wonder if there is no way in which we can make these poor people happier?"

"Yes," said the woman of the house, as she straighted up beside her tub and rubbed the soapsuds from her hands, "you could help matters a great deal by knocking at the door before you come in and snoop around."—Chicago Record-Herald.

Murder in Letcher.

Another murder has been added to the criminal record of Letcher county, Ky. On the 20th inst., at Elkhorn creek, the scene of the moonshiners' battle of last January, Ben Mullins, aged 24, went to the home of Elbert Mullins, his cousin, and after calling him to the roadside and quarreling over a settlement of a two-dollar debt, shot him dead. Mullins was arrested.

The Future of Our Academy.

Now that the National Christian Woman's Board of Missions has been put in possession of the deed to the property for the new academy, we may expect the contractors to begin at once. Hon. W. O. Mize received a letter from Mrs. Ellen Moses, secretary of the board, in which she thanks the good people for their liberal donation and assures them of its appreciation. She also says that the national C. W. B. M., has accepted the plans as promulgated by the Kentucky board, and thinks operations on the buildings will soon begin. They will spend on the proposed plant not less than $10,000 and in all probability $20,000 within the next two years, and during the erection of the buildings the contractors will spend sums of money for labor, lumber, etc. But the great benefits to accrue to Hazel Green and a wide scope of country contiguous is absolutely inestimable, because the end is not nor can be possibly foretold. The present generation will begin to reap the good this school will do, but there are yet unborn generations that must be benefitted by the building of those school rooms. Already this school, with cramped accommodations, has done a wonderful good in this country, and especially under the present management. But with increased facilities and an increased faculty it is destined to do far more than ever and each decade, if not each succeeding year, will see it grow in usefulness. Prof. Cord has been an indefatigable worker for the upbuilding of this school, and he has had the ambition to succeed against innumerable obstacles, so that his friends are proud that he is to receive his reward in being retained at its head. The writer, some years since used the expression, "The cheapest and best school in Eastern Kentucky" to make up a needed line in a display advertisement. It was taken up at once and has since been used as a kind of trademark. It is all the sentence claims, as is evidenced by the yearly increase of matriculates, and we look forward to the time when it will be not alone "the cheapest and best school in Eastern Kentucky," but be known far and wide as "among the best in the south and as good as any in Kentucky.' So mote it be.

Astounded the Editor.

Editor L. A. Brown, of Bennettsville, S. C., was once immensely surprised. "Through long suffering from dyspepsia," he writes, "my wife was greatly run down. She had no strength or vigor and suffered great distress from her stomach, but she tried Electric Bitters which helped her at once, and, after using four bottles, she is entirely well, can eat anything. It's a grand tonic, and its gentle laxative qualities are splendid for torpid liver." For indigestion, loss of appetite, stomach and liver troubles its a positive, guaranteed cure. Only 50c at J. Taylor Day, Hazel Green, or S. S. Combs & Son, Campton, drug stores.

The New Reporter Again.

"Always," said the astute city editor to the new reporter, "Always be on the lookout for any little touch of humor that may brighten up our columns."

That evening the new reporter turned in a story about a robbery burglary in a butcher shop, which commenced:

"Mr. Hiram Cleaver, the well-known butcher, is losing flesh these days."—Baltimore American.

THE HERALD for 12 months and $5,000 for $1.00 is a great big bargain awaiting the man who can figure the total vote of Ohio, Massachusetts and Iowa. See "Try Your Luck" on last page for particulars.

A Fox-Breeding Farm.

A move is on foot among the fox hunters of the United States to establish a permanent hunting ground near Estill Springs, in Estill county. A tract of land on which there is a forest will be purchased and a high fence will be built around it. In this inclosure reynard will be bred for the purpose of the chase. Kennels, booth houses, stables and other necessary buildings will be erected.

FOLLY IN FAIRYLAND

By Carolyn Wells Author of "Story of Betty;" "The Jingle Book;" "The Merry-go-Round."

Pictures by Wallace Morgan, 12mo, cloth, ornamental, illustrated, $1.00.

The clever ingenuity of Carolyn Wells was never better evidenced in her work, than in her latest juvenile venture, "Folly in Fairyland."

If a little girl or boy who loves fairies (and what child doesn't?) wants to go to Fairyland, and find out how they live there, what their houses are like, and what they do to amuse themselves, just read this book and be transported into the very heart of Fairyland itself.

Folly (whose full name was Florinda) went there, and her adventures are graphically told. Unlike "Alice in Wonderland," she didn't meet queer, unusal creatures, but she visited dear old Aladdin, Cinderella, and the Queen of Hearts in their palaces, and piloted by Puss in Boots, traveled over the whole realm and became well acquainted with the heroes and heroines of Fairyland in their own homes.

Then, of course, she called on the Three Bears in their woodland home, and also interviewed The Old Women Who Lived in a Shoe. And you'd never guess, if you weren't told, that a beautiful princess who was called Scary for short was really Scheherazade, and she told some of her own marvellous stories for Folly's benefit.

Besides this, there was a wonderful patented story teller to which Folly could listen whenever she chose, and lots of other curious things never even heard of outside of Fairyland—The Popular Popinjays were a most amusing people, and their funny experiences would almost make a book by themselves. But the visit to the Sleeping-Beauty-in-the-Wood was one of the very nicest, and Folly never forgot the queer sensation of wardering through a palace where everybody was asleep, and had been asleep for many long years. And what happened there,—well it was just what might have been expected.

Folly also went to sea in the bowl of the Three Wise Men of Gotham, and, in short, every well-known personage of nursery lore eagerly helped to make her trip a success.

And this delightful matter, told in Miss Wells' own crisp and original manner, with frequent interspersions of the rhythmical, jingly rhymes, goes to make up the gayest, jolliest child's book of the season.—Henry Altemus Company Philadelphia.

The Secret is Out.

All Sadieville, Ky., was curious to learn the cause of the vast improvement in the health of Mrs. S. P. Whittaker, who had for a long time, endured untold suffering from a chronic bronchial trouble. "It's all due to Dr. King's New Discovery," writes her husband. It completely cured her and also cured our little grandaughter of a severe attack of whooping cough. It positively coures coughs, colds, la grippe, bronchitis, all throat and lung troubles. Guaranteed bottles 50c and $1.00. Trial bottles free at J. Taylor Day, Hazel Green, and S. S. Combs & Sons, Campton, drug stores.

While hunting, in Martin county, Ky., Girard Mills, aged 15, was attacked by a wildcat, and for an hour fought the animal, finally killing it.

ADMIRAL SAMPSON'S friends are defending him on the ground that he did not write that "Fourth of July present" dispatch. If Admiral Sampson permitted an underling to send the news of such an event without submitting the dispatch to him, he thereby proved himself unfitted for the high place confided to him.

Seriously Hurt.

Mrs. W. T. Caskey had one of her knee-caps dislocated by the kick of a horse on Sunday night, and has since been suffering severely. While driving along near John Will Taulbee's, this side of Daysboro, a buggy shaft broke and they dropped down upon the horse's hocks when he started to run. Mr. Caskey then pulled him into the fence and he began kicking and kicked Mrs. Caskey on both knees, dislocating the cap of the left one, and otherwise bruising her up considerably. Mr. Caskey was also kicked and bruised, but did not fare nearly so seriously as his wife. Mr. Caskey got a wagon and brought her in home about 8:30 Sunday night and Dr. Waldeck was summoned and discovered the facts as above stated. Everybody in the community regret the accident, and extend sympathy to Mr. and Mrs. Caskey in their trouble,

Recent Advances in Photography.

The camera of the amateur photographers is playing an important part in the world of art these days. A delightful phase of its value as a depicter of Nature is shown in The Ladies' Home Journal for September. In this issue two pages are given to the last of that magazine's prize photographs of rural scenes, and the collection is a notable one, interesting alike to the picture-taker and the lover of pictures. Some of the scenes have all the distinguishing qualities of paintings, with the added charm of being true to Nature.

Jimmie Day has sold his ranch interests near Midland, Texas, for $8,566, and will embark in the grocery business at Midland. He had less than $500 when he left here a few years ago, but by close attention to business and lucky investments has secured a competency. Had he remained here he might have existed. Robert and Ed Day are still in the cattle business near Midland, enjoying good health and making money.

"THE MAN THAT WASN'T THERE."

BY SAM WILSON.

One balmy night I dreamed a dream
About a terrible battle scene;
I saw the American fleet, so brave,
Put the enemy's boats beneath the wave.
While watching the fray I did not view
The flagship of the American crew;
It was not long till I was aware
That Sampson, surely, was not there.

Where was he, then, the world may ask?
What made the coward shirk his task?
Ah! readers, he was in high glee
With some old maids drinking tea.
When he came back the fight was won
By Schley, America's bravest son;
I ask each heart could glory dare
To crown the man that wasn't there?

Sampson in history, what has he done?
After glory, and didn't fire a gun;
Its a new kink, the latest craze,
Strange things happen now-a-days.
This one seems to be in the push,
And takes the rag clean off the bush;
The money kings do allegiance swear
To him, the man that wasn't there.

Yet the incomparable Schley shall be
The people's pride through America;
We saw his courage on that day,
No better hero could we portray.
While Sampson still was having fun
Schley made the enemy's squadron run,
But money kings will now prepare
To honor the man that wasn't there.

Yet Schley will live and win renown,
Though others steal from him the crown;
The records of that Sunday morn
Shall never from our hearts be torn,
So let them do—do what they will,
Schley, the conqueror, is a hero still,
And none but money kings will declare
For Sampson, the man that wasn't there.

"Tarry Thou Till I Come."

"The Wandering Jew" is having a wonderful revival in literature lately. The first book in this fascinating field was "Salathiel," by Geo. Croly, Christ words to whom, "Tarry thou till I come," spoken beneath the weight of the cross to the scoffing Pharisee, sets the Jew wandering. Most notable followers of this story were Eugene Sue's masterpiece. "The Wandering Jew," and "The Prince of India," by the author of "Ben Hur," Gen. Wallace himself praises Croly's "Salathiel" as one of the six greatest English novels ever written. One New York publisher has lately issued an illustrated edition at $1.40 net. Now comes John B. Alden, so well known as the pioneer in cheap book publishing, with an edition in paper covers at 25 cents. To introduce his publications to our readers Mr. Alden offers to send it to any of them who will remit that amount not later than September 30th, and he will pay this paper, at the same time, 17 cents on account of your subscription to it, thus making the actual cost of the book only 8 cts., postpaid. You can send the money to this paper, or to John B. Alden, Publisher, 442 Pearl St., New York, as you please.

Morgan French, who married Minnie Mapel, whas hurt by a tree falling upon him last Monday week, and died from his injuries on Thursday. Two men were sawing down a pine three. In falling it hit another tree and the butt swung round and struck Morgan upon the hip and stomach, knocking him down, and then rolling upon him broke his leg. An hour and a half elapsed before he could be gotten home, and the heat was intense. After his limb was set the doctor thought he would come out all right. But on Tuesday he lost conciousness and never recovered, dying Thursday. He leaves a wife and two children, four and two years, respectively, to whom THE HERALD extends sympathy and condolence.

Henry Pieratt bought all the picture frames the agent of the Chicago Portrait Co. had left over and is selling them 50 per cent cheaper than the agent sold them. The number is limited, and if you want one you'd better move in a hurry, as they are going like hot cakes. 52-tf

Prof. Cord, accompanied by Prof. Blankenship, left on Monday for West Liberty, where they both were to work in the interest of the academy. Davis & May last week turned out a buggy for H. F. Pieratt which has been pronounced by all who have seen it "as good as ever came down the road." If everybody who has use for a buggy would emulate the example of Mr. Pieratt and patronize home enterprise this country would be much better off. The workmanship is every whit as good as in the brought on buggies and the material is better by far. So when you want a buggy try Davis & May. They also turned out a two horse road wagon on Monday for David Cox of Salem, that was equally good.

Vitæ Ore Cured Her.

No tongue can tell or pen describe
The troubles of my wife,
And more than once I'd thought she'd be
An invalid for life.
We've tried the doctors, one by one,
Until it reached a score;
They did no good, but she was cured
By using Vitae Ore.

Rheumatism was the dread disease,
Her frame was filled with pain,
But Vitae Ore made it disperse
And never return again;
And now she enjoys life's pleasures
And sufferers does implore
To give up all the rest and try
The virtues of Vitae Ore.

Mr. Clark, of tha firm of Clark & Howard, the Lexington contractors, was here one day last week to look over the ground and ascertain the cost of the stone, etc. The basement of the academy will be built entire of stone, and the building trimmed with it. Mr. Clark says he likes this stone better than the Rowan county product from Freestone quarry, and thinks it will make a better building rock. It is now thought work on the academy may begin by Sept. 10.

John D. Rose, jr., has a five months old boar that tips the beam at 200. Mr. and Mrs. Q. C. Daniel have moved to Hazel Green to take charge of the boarding department of the academy. This is a guarantee that those boarding their children at the dormitory will be well cared for, as they kept the dormitory before and gave perfect satisfaction to their boarders.—Morgan Messenger.

How To Gain Flesh

Persons have been known to gain a *pound a day* by taking an ounce of SCOTT'S EMULSION. It is strange, but it often happens.

Somehow the ounce produces the pound; it seems to start the digestive machinery going properly, so that the patient is able to digest and absorb his ordinary food, which he could not do before, and that is the way the gain is made.

A certain amount of flesh is necessary for health; if you have not got it you can get it by taking

A few who had dimes jingling in their pockets, entered the gates, but quite a number turned away, not because they couldn't pay, but didn't feel like making merchandise of the gospel. Is it any wonder our country is fast filling up with skeptics and infidels? Did Jesus ever charge for those immortal sermons he delivered on the Mount? What would Jesus do? The trials of the fifteen Ku Klux members who murdered Mrs. Jemima Hall and her 14 year-old son at Boon's Fork last November, was transferred to Pineville, Bell county, on a change of venue. Owing to the strong feeling and public sentiment against the organization, it would have been impossible for them to have gotten a fair trial, and Judge Moss did the right thing in the right place.

Healthy Mothers

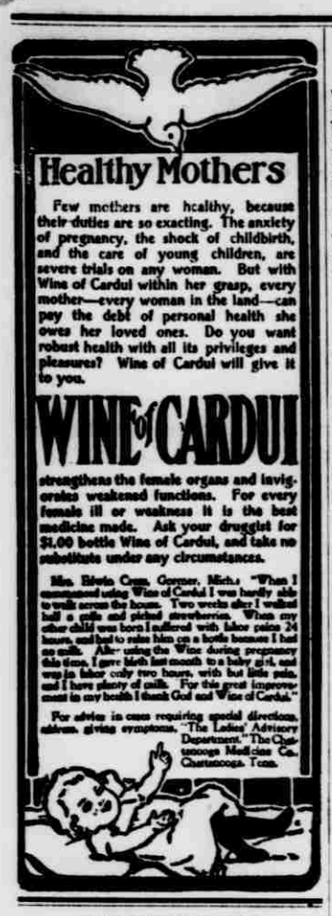

Few mothers are healthy, because their duties are so exacting. The anxiety of pregnancy, the shock of childbirth, and the care of young children, are severe trials on any woman. But with Wine of Cardui within her grasp, every mother—every woman in the land—can pay the debt of personal health she owes her loved ones. Do you want robust health with all its privileges and pleasures? Wine of Cardui will give it to you.

WINE of CARDUI

strengthens the female organs and invigorates weakened functions. For every female ill or weakness it is the best medicine made. Ask your druggist for $1.00 bottle Wine of Cardui, and take no substitute under any circumstances.

Mrs. Edwin Cram, Gertner, Mich.: "When I commenced using Wine of Cardui I was hardly able to walk across the house. Two weeks after I walked half a mile and picked strawberries. When my other child was born I suffered with labor pains 24 hours, and had to raise him on a bottle because I had no milk. After using the Wine during pregnancy this time, I gave birth last month to a baby girl, and was in labor only two hours, with but little pain, and I have plenty of milk. For this great improvement in my health I thank God and Wine of Cardui."

To Save Her Child

From frightful disfigurement Mrs. Nannie Galleger, of La Grange, Ga. applied Bucklen's Arnica Salve to great sores on her head and face, and writes its quick cure exceeded all her hopes. It works wonders in sores, bruises, skin eruptions, cuts, burns, scalds and piles. 25c. Cure guaranteed by J. Taylor Day, of Hazel Green, or S. S. Combs & Son, Campton, drug stores.

A Diarrhœa Remedy.

Some of the most stubborn cases of diorrhœa have been arrested by browning rice in the oven, grinding it and preparing it like coffee. Give as much of this as the patient will drink every hour or two until the movement of the bowels are checked. This is especially effecacious with children.

For constipation, use a tea made of senna leaves, or give one-half a level teaspoonful of licorice powder once in three hours until it has the desired effect.

In cases of cough or croup give the little one One Minute Cough Cure. Then rest easy and have no fear. The child will be all right in a little while. It never fails. Pleasant to take, always safe, sure and almost instantaneous in effect.

H. F. PIERATT.

John McIntosh of Knowlton, Ky., was attacked by a catamount which, with the assistance of two dogs, he succeeded in killing. It was the first of the species seen thereabouts in years.

Mrs. S. H. Allport, Johnstown, Pa., Says: "Our little girl almost strangled to death with croup. The doctors said she couldn't live but she was instantly relieved by One Minute Cough Cure. H. F. PIERATT.

Frank Garr and Andrew Dobson, arraigned for shooting at Nelse Athens and hitting Elsie McDonald, at Louisville, were dismissed, the evidence showing that Athens had drawn a knife on them, and that the hitting of Miss McDonald was accidental.

What a Tale it Tells.

If that mirror of yours shows a wretched, sallow complexion, a jaundiced look, moth patches and blotches on the skin, it's liver trouble; but Dr. King's New Life Pills regulate the liver, purify the blood, give clear skin, rosy cheeks, rich completion. Only 25c at J. Taylor Day, Hazel Green, or S. S. Combs & Son, Campton, drug stores.

A Miserly Man's Misfortune.

"There is a certain tobacco grower in Fayette county," said Jep Noel, of the Consolidated Tobacco Company, "who declared to me the other day that he would never again believe anything he read concerning new-fangled ideas. He told me that he had read in a newspaper a dispatch from some place in Virginia where a tobacco grower, to do away with the expense necessary to the picking of worms from tobacco by men, had purchased about 3,000 ducks and turned them into his tobacco field; that the ducks performed the work as well as the men and at the same time the worms fatted the ducks. There wasn't enough water close by my friend's place to accommodate a large number of ducks, so he concluded a big drove of turkeys would do the work. He spent a great deal of money for healthy looking hens and gobblers and turned them into the tobacco field. The result is that nearly every leaf of the tobacco is pecked to pieces and two thirds of the turkeys are dead."—Lexington (Ky.) Notes in Cincinnati Enquirer.

O. O. Buck, Beirne, Ark., says: I was troubled with constipation until I bought DeWitt's Little Early Risers. Since then have been entirely cured of my old complaint. I reccommend them. H.F. PIERATT.

A Chimney Full of Currency.

James E. Elliott, a teamster of this city, made a lucky find on the 19th inst., at his home on South Walnut street. He was tearing down an old-fashioned chimney, built 50 or more years ago, and came across a number of old coins. At the bottom there was more money. Some of it was paper, but the greater portion was silver dollars and half dollars, and five and ten-dollar gold pieces. All bore date before 1860. There was in all about $1,700. Old residents cannot recollect when any person lived in the place who could possibly have had so much money. The house has always been occupied by people who were considered poor, and for some years stood without a tenant on account of being in bad repair.—Wooster (O.) dispatch to Cincinnati Enquirer.

Eruptions, cuts, burns, scalds and sores of all kinds quickly healed by DeWitt's Witch Hazel Salve. Certain cure for piles. Beware of counterfeits. Be sure you get the original—DeWitt's. H. F. PIERATT

Surely you enght to guess close enough to catch something. tf.

P. T. Thomas, Sumterville, Ala., "I was suffering from dyspepsia when I commenced taking Kodol Dyspepsia Cure. I took several bottles and can digest anything." Kodol Dyspepsia Cure is the only preparation containing all the natural digestive fluids. It gives weak stomachs entire rest, restoring natural condition.

H. F. PIERATT.

John Fugate, colored, was hanged at Wise, Va., on Friday for the murder of his wife, he having beaten her to death about three months ago.

The case against Mrs. Jane Estridge at Lancaster, Ky., charged with performing an operation upon herself, resulted in an acquittal.

The Rev. C. F. WELLS, of Villa Ridge, Ill., says: "Your trial bottle of Asthmalene received in good condition. I cannot tell you how thankful I feel for the good derived from it. I was a slave, chained with putrid sore throat and Asthma for 10 years. I despaired of ever being cured. I saw your advertisement for the cure of this tormenting disease, Asthma, and thought you had overspoken yourselves, but resolved to give it a trial. To my astonishment, the trial acted like a charm. Send me a full-size bottle."

Rev. Dr. Morris Wechsler,
Rabbi of the Cong. Bnai Israel.

NEW YORK, January 3, 1901.

DRS TAFT BROS.' MEDICINE CO.:

Gentlemen: Your Asthmalene is an excellent remedy for Asthma and Hay Fever, and its composition alleviates all troubles which combine with Asthma. Its success is astonishing and wonderful.

AVON SPRINGS, N. Y., February 1, 1901.

DR. TAFT BROS. MEDICINE CO.:

Gentlemen: I write this testimonial from a sense of duty, having tested the wonderful effect of your Asthmalene, for the cure of Asthma. My wife has been afflicted with spasmodic asthma for the past 12 years. Having exhausted my own skill as well as many others, chanced to see your sign upon your windows on 130th street, New York, I at once obtained a bottle of Asthmalene. My wife commenced taking it about the first of November. I very soon noticed a radical improvement. After using one bottle the Asthma has disappeared and she is entirely free from all symptoms. I feel that I can consistently recommend the medicine to all who are afflicted with this distressing disease. Yours respectfully,

O. D. PHELPS, M. D.

DR. TAFT BROS. MED' CO.: February 5, 1901.

Gentlemen: I was troubled with Asthma for 22 years. I have tried numerous remedies, but they have all failed. I ran across your advertisement and started with a trial bottle. I found relief at once. I have since purchased your full-size bottle, and I am ever grateful. I have family of four children, and for six years was unable to work. I am now in the best of health and am doing business every day. This testimony you can make such use of as you see fit.

Agricultural, Horticultural, Chemical, Biological, Mathematical, Normal School, Classical, Mechanical Engineering, Electrical Engineering, Civil Engineering, each of which extends over four years and leads to a degree. Post-graduate courses of study are also provided, leading each to a master's degree. Each course of study is organized under a separate faculty. The general faculty numbers more than thirty professors and instructors.

County Appointees receive tuition, room rent in dormitories, fuel and lights, and if they remain ten months, traveling expenses.

The laboratories and museums are large, well equipped, comprehensive and modern.

The last Legislature appropriated $30,000 for a college home for young women, and a drill hall and gymnasium has been provided for men.

Military tactics and science are fully provided for and required by Congress.

Graduates from the several courses of study readily find excellent positions and liberal remuneration. The demand is largely in excess of the ability of the college to supply.

READ THE TESTIMONY OF TWO WELL KNOWN CITIZENS OF WOLFE.

Mr. Cooper, Hazel Green, Ky.:

I purchased some of the Vitæ-Ore of you in the latter part of March, and after taking about a half-pint of the Vitæ-Ore Elixer my nerves were as steady as when I was 16 years of age, and I am now past 75. For more than a year I had been trying all the patent medicines and nostrums I could hear of to build myself up, but nothing did me any good until I used Vitæ Ore, which my wife brought me from your house. After using it a week I went out and did three days' as hard work as I have done in 25 years, and I was not more fatigued than I was 25 years ago over the same work. It is the grandest medicine in the world, and I want everybody in the mountains to know what it did for me so they may try it. Hoping every one who has that tired feeling incident to old age will buy Vitæ-Ore of you and give it a fair trial, I remain, thankfully yours for putting me on to this remedy.

JAMES LACY.

I can vouch for every word Mr. Lacy says in the above. I am his wife and bought the medicine of Mr. Cooper for him, though I did not have much faith in it, because we had tried so many things that did no good. I have also used Vitæ Ore, and am stronger and in better health than for years, which I attribute to its use.
